-\٤٤.

Sub: Livestock - Improvement - Government Livestock (Bull)- Distribution Scheme- Distribution of bulls- Compensation to the bailees - Proposals- Submitted.

Ref: 1. G.O.No. Ms.2107 Development dated 18-11-1941
2. G.O.No.Ms.2192 Development dated 14-10-1942

Government in their order No.2107 Development dated 18-11-1941 approved the proposal of the Director of Animal Husbandry, that the custodians to whom local bodies have distributed breeding bulls, purchased with the aid of Government grant, should be paid a compensation of Rs.3/- per mensem upto a maximum of Rs.36/- in each case for the expenses incurred in the maintenance of the bulls and the loss of service fees, in cases where bulls are found to be inefficient at stud in spite of their proper maintenance by their custodian and withdrawn for sale.

2. A few instances have since been brought to my office, where breeding bulls distributed un er the Government Livestock (Bull) Distribution Scheme had to be withdrawn from their respective bailees because of their inefficiency at stud though they were maintained in good condition and when so required given necessary treatment at Veterinary Institutions. The bailees accept to maintain the breeding bulls under the Government Livestock (Bull) Distribution Scheme, only with the hope that the bulls will become their property after the stipulated period, and in addition that they would get the service fees. When bulls are withdrawn due to their inefficiency at stud, the bailees are deprived of both the benefits even though they have had to maintain the bulls at the present day cost. In such cases a compensation may be given to the bailees just as it admissible in the cases of the bulls distributed under the District Board Scheme for the expenses incurred in the maintenance of the bulls and the loss of service fees. The agreement to be executed in connection with the distribution of animals under the Government Livestock (Bull) Distribution Scheme approved in G.O.No.Ms.2192 Development dated 14-10-1942 also holds good in the cases of bulls distributed under the District Board Scheme.

3. As regards the compensation amount, a sum of Rs.3/- per mensem upto a maximum of Rs.36/- in each case sanctioned by Government in their Order No.2107 Development dated 18-11-1941, when the cost of maintenance of bulls was lesser than what it is now, is too meagre and may be revised. A sum of Rs.30/- only towards maintenance charges together with a sum of Rs.60/- towards service fees was sanctioned to the bulls in the premium scheme as per G.O.No. 2749 Development dated 30-11-1940. The maintenance charges in respect of bulls in Government premium scheme have since been enhanced to Rs.140/- please see G.O.No.2268, Development dated 5-5-1948. I, therefore, suggested that the compensation amount may be increased to Rs.12/- per mensem upto a maximum of Rs.140/- for a period of one year in each case considering the prevailing high cost of maintenance of breeding bulls.

4. I, therefore, request that Government may be pleased to sanction the enhanced rates of compensation and extend the applicability of the orders contained in G.O.No.Ms.2107 Development dated 18-11-1941 to similar cases in respect of bulls under the Government Livestock (Bull) Distribution Scheme without any modification in regard to the procedure for payment of compensation and crediting of sale proceeds.

Copy of letter No.Roc.No.5243-IV/49 dated 20-7-49 from the Joint Director of Animal Husbandry, Madras to the Deputy Secretary to Government, Development Department, Madras.

Sub: Government Livestock Distribution Scheme- Compensation to bailees.

Ref: Government Memorandum No.68793 -E/49-1. dated 14-7-49.

--

It is not possible to forecast a fairly correct estimate of the amount that may become payable in the shape of compensation. The maximum contemplated to be paid in respect of each bull is Rs.140/- It is not expected that such cases will be more than about eight ~~to the~~ a dozen in a year . I, therefore, consider that the cost involved in the proposal may be ~~xxkxx~~ about Rs.1,500/- for a year.
